26th February 2018

Maths Information Evening – Spring Term 2018

I am writing to invite you to our “Maths Information Evening,” which is designed to help you to gain a better understanding of how Maths is taught here at Finstall First School. This year, we will be focussing, in particular, on “Reasoning” and how children are taught to reason when solving problems.

As most parents enjoy supporting their children with their school work, we felt it was important that parents understood the same methods and approaches that are used in school in order to provide consistency for your children.

The evening, which will be held on **Thursday 15th March from 6.00 – 7.00pm**, will consist of two parts as follows:

- a short presentation in the hall, starting at 6.00pm
- the opportunity for you to talk to the teaching staff and use some of the resources and experience some of the methods used in each year group

Unfortunately, we will not be able to accommodate children in school during this evening.

If you are unable to attend, the power point presentations and more specific information about how children are taught different aspects of Maths will be available on the School website, along with the School’s “Maths Calculations Policy.”

So that we know how many people to expect, it would be most helpful if you would please indicate who will be attending on the reply slip below.

Thank you for your continued support and we look forward to seeing you on 15th March.

Yours sincerely,

Stuart Evans
Head Teacher

Maths Information Evening 2018

The following will be attending the Maths Information Evening on 15th March at 6.00pm:

Names:

Child’s Class:
