

# **FINSTALL FIRST SCHOOL**

## **EARLY YEARS POLICY**

### **Our Vision**

“We care, we share, we learn and achieve”

### **Our Aims**

- ❖ To provide a positive, safe and happy learning environment in which everyone is inspired and empowered to achieve the highest standard of which they are capable in all aspects of their life.
- ❖ To provide a broad, balanced, stimulating curriculum in which all progress is recognised, developed and celebrated.
- ❖ To recognise, accommodate and support the needs of all individuals.
- ❖ To help everyone to make appropriate choices through praise, encouragement and by leading through example.
- ❖ To treat everyone with respect, encourage self respect, listen to and value everybody's opinions, contributions and ideas.
- ❖ To provide an open school that promotes health and well being and continually develops effective partnerships with parents and the wider community.
- ❖ To ensure that effective leadership and management enables us to continually improve all aspects of our school through systematic, rigorous self evaluation.
- ❖ To provide access to high quality professional development in order to keep abreast of, and assist in the implementation of, new initiatives.
- ❖ To make school fun for everybody.

### **Philosophy**

Early childhood is the foundation on which children build the rest of their lives. It is not just preparation for the next stage – it is vitally important in itself.

### **Introduction**

The Early Years Policy of Finstall First School applies to all children who join the school at the beginning or during the academic year in which they are five. This year group will follow the Early Years Foundation Stage curriculum (EYFS).

The EYFS is part of the National Curriculum and prepares children for learning in Key Stage 1.

Children joining our school have already learnt a great deal. Family/Carers are their main educators and many have attended a Pre-School/Nursery in our community. The early year's education we offer our children is based on the following principles:

- It builds on what our children already know and can do;
- It ensures that all children are included and have access to the whole curriculum;
- It offers a structure for learning that has a range of starting points, content that matches the needs of each individual child and activities that provide opportunities for learning both indoors and outdoors;
- It provides a rich and stimulating environment.

## **The Foundation Stage Curriculum**

The curriculum of the EYFS underpins all future learning by supporting, fostering, promoting and developing the seven areas of learning:-

- Personal, Social and Emotional Development
- Communication and Language
- Literacy
- Mathematics
- Understanding of the World
- Physical Development;
- Expressive Arts and Design

When planning, we ensure that all seven areas of learning are given appropriate emphasis and that all aspects of learning within the seven areas are covered.

Planning must always remain flexible to take account of the interests and needs of individual children and to capitalise on unplanned events, particularly those initiated by the children.

Forest school takes place weekly in Reception **during Autumn 2**, Spring and Summer terms and is an excellent opportunity to give the children the chance to consolidate their learning in a completely different environment. Children are given the chance to initiate their own activities with natural resources and experience life outdoors.

## **Strengths of the EYFS at Finstall First**

Below, we have listed some of the strengths of the EYFS at Finstall First School:

- Partnership between teachers and parents, which enable our children to feel secure at school and develop a sense of well-being and achievement;
- The teachers' knowledge of how children develop and learn and the range of teaching strategies at their disposal;
- The teachers' abilities to provide an appropriate balance between child-initiated learning (with rigorous guidance from the teaching staff) and adult led learning (through clear explanations) and how best to extend and develop play and talk or other means of communication;
- A carefully planned curriculum that helps children achieve the Early Learning Goals by the end of the Foundation Stage;
- Provision for children to take part in activities that build on and extend their interests and develop their intellectual, physical, social and emotional abilities;
- Encouragement for children to communicate and talk about their learning, and to develop independence and self-management;
- Support for learning with appropriate and accessible indoor and outdoor space, facilities and equipment;
- Identification of the progress and future learning needs of children through observations, which are regularly shared with parents;
- Good relationships between our school and the settings that our children experience prior to joining our school;
- Clear aims for our work, and the regular monitoring to evaluate and improve what we do;
- Regular identification of training needs of all adults working within the Foundation Stage.
- Weekly meetings to discuss planning, key observations and moderation of children's attainment levels.

- Children are challenged through support, open ended questioning and independence.
- Further communication between the Reception staff and year one staff when children are near to achieving the Early Learning Goals.

### **Play in the Foundation Stage**

Children at this stage do not differentiate between work and play and well-planned play is a key way in which children learn with enjoyment and challenge. It is also important that children have the opportunity to initiate their own play on a regular basis. They need time to become engrossed, work in depth and complete activities.

Through play our children explore and develop learning experiences, which help them make sense of the world. They practice and build upon ideas and learn how to control themselves and understand the need for rules. They have the opportunity to think creatively alongside other children as well as on their own. They communicate with others as they investigate and solve problems. They express fears or re-live anxious experiences in controlled and safe situations. They are able to take risks and make mistakes.

### **Equal Opportunities (Inclusion)**

Resources and learning experiences will be accessible to all children. In the Foundation Stage we give all children every opportunity to achieve their best by taking account of their range of life experiences and abilities when planning for their learning. Some children with Special Educational Needs may be identified before entry to school through liaison with other agencies, pre-schools / nurseries and parents. Every child is valued and appreciated.

### **Assessment, Record Keeping, Reporting**

Ongoing assessment of children's learning is used to ensure that future planning reflects identified needs. Assessment in the EYFS takes the form of observation and discussion carried out by the teacher, teaching assistant and other adults as appropriate

### **Staffing**

- Each Foundation Stage class will be staffed by a Qualified Teacher.
- Each class teacher will have support from a Teaching Assistant (TA), all day, every day, to support the children in their learning.
- The involvement of volunteer helpers in the classroom is encouraged, working under the guidance of the class teacher.

### **Resources**

A range of equipment is available, both indoors and outdoors, providing a wide range of opportunities to motivate and support children. The materials and equipment used reflect both the community and the wider world and are free from discrimination and stereotyping.

Children's independence is encouraged through a well-organised environment where resources are easily accessible and stored suitably. The children are expected to take responsibility for their own belongings and the environment wherever possible.

All staff are constantly aware of issues concerning Health and Safety and resources are constantly monitored before, during and after use.

## **Home/School Liaison**

It is recognised that all parents/carers have an important role to play in the education of their child. All parents are given a welcome pack and are invited to an induction meeting, which takes place, in the summer term before their child starts school.

In the week following a child's first full week in school, parents are invited to a 10 minute appointment with the class teacher to discuss their child's baseline assessment. They are provided with a copy a pupil summary which show what the children can do and what are their next steps.

Each Friday, parents will receive an email containing observations and assessment links through the Target Tracker assessment system.

The class page of the website is used for photographs, and setting of phonics and number skills to practice at home

Parents are also involved through the regular use of the communication book which is placed in a tray outside the classroom each morning if parents wish us to look promptly.

Notices are displayed on the Reception notice board and emailed to parents.

Parents are invited to our class assemblies and Christmas productions.

Parents are encouraged to talk to the class teacher as soon as possible if they have any queries or concerns and throughout the child's first year at school we ensure that staff are available to parents at the beginning (briefly) and end (for longer meetings) of the school day.

## **Induction**

During the summer term the new cohort spend several sessions in their future classroom, with their new teacher.

There is a staggered intake to the new school year to help settle all children into school life and their new surroundings. The induction process is explained in the School Brochure and at the New Parents' Evening in the summer term before their child starts school.

This policy was approved by the governing body on: 18<sup>th</sup> October 2018

This policy will be reviewed in October 2021

Governor responsible: Martin Evans
